This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. VORWORT.

Wer immer der raschen Entwicklung der assyriologischen Studien in den letzten Jahrzehnten gefolgt ist, wird den Besitz eines assyrischen Wörterbuches als nicht länger entbehrlich erkannt haben, um die bis jetzt gewonnenen Resultate mit genügender Vollständigkeit und Sicherheit benützen und durch eigene Forschungen weiterfördern zu können. Seit den grundlegenden Arbeiten von Sir Henry Rawlinson und Jules Oppert haben die fortgesetzten Ausgrabungen in Mesopotamien unsere Kenntnisse stetig erweitert und vervollständigt, neue Forscher haben das alte Material mehr und mehr gesichtet und geordnet, neue Fragen wurden angeregt, alte Vermutungen bezweifelt und beseitigt, andere wieder bestätigt, und auf die immer eindringendere philologische Genauigkeit in Detailfragen waren die Bestrebungen der Assyriologenschulen des Continents während der letzten Jahre gerichtet.

Das vorliegende Werk will nur eine Stoffsammlung für einen Teil des Inschriftenmaterials sein und ein zukünftiges kritisches Wörterbuch der assyrischen Sprache vorbereiten helfen. Nachdem ich im Jahre 1869 mit Hülfe der damals zugänglichen Publicationen einige Kenntniss des Assyrischen mir angeeignet hatte, wurde mir 1878 die Gelegenheit diese assyriologischen Studien im Britischen Museum selbst fortzusetzen. Drei Jahre lang copirte ich meist unveröffentlichte Keilschrifttexte und collationirte die Publicationen nach den Originalen. Nur diejenigen können die Mühe einer solchen Arbeit würdigen, die selbst sich für längere Zeit im Copiren der kleinen, oft fast unleserlichen und fragmentarischen Keilschrifttexte geübt haben. Den Conservatoren der Assyrischen Sammlung, besonders dem unterdessen leider zu früh verstorbenen Herrn Dr. S. Birch und Herrn Theo. Pinches, spreche ich bei dieser Gelegenheit auch öffentlich meinen herzlichsten Dank aus für die grosse Freundlichkeit und Bereitwilligkeit, mit der sie mir stets die gewünschten Inschriften zur Verfügung stellten. Ein Teil der Resultate dieser Studien ist nun in diesem Wörterverzeichniss zum zweiten Bande des Londoner Inschriftenwerkes niedergelegt. Zu der gewählten Form veranlasste mich die Erwägung, dass dieser zweite Band die meisten für die Assyriologie grundleglich wichtigen sog. Syllabare, dessgleichen die Synonymenverzeichnisse enthält, von deren allseitigen Kenntniss und richtigem Verständniss die assyrische Worterklärung in nicht minderem Grade abhängt als von dem Zusammenhang der Stellen und der Etymologie. Da auch das sog. Akkadische der linken Columnen der zweisprachigen Inschriften aller Beachtung werth ist, insofern es in sehr vielen Fällen dazu dient die assyrischen Synonyme zu erkennen und ihrer Bedeutung nach zu bestimmen, so schien es das Zweckmässigste, alle Wörter, die assyrischen wie die akkadischen, in der Reihenfolge des hebräischen Alphabets anzuführen, und zwar mit Beibehaltung der Vocalunterschiede unter Hinzufügung der Belegstellen, des Contextes und der Synonyme. Die Vocale wurden zu den ihnen nächststehenden Consonanten gestellt: A zu א, E (, das im Anlaut nur selten mit wechselt) zu ה (wo zugleich die wenigen mit dem Hauchlaut beginnenden Wörter am Anfang mit aufgeführt sind), J zu י, U zu ו (am Anfang getrennt die mit *û* beginnenden Wörter). Die Consonanten ע, א, ה wurden nicht geschieden, weil sie es in der assyrischen Schrift nicht werden. Bei der Anordnung wurde im Allgemeinen darauf geachtet, die gleichen Keilschriftzeichen möglichst zusammen zu stellen, wesshalb z. B. *an* mit folgendem Vocal: *a, i, u,* getrennt ist von *an* mit folgendem Consonanten. Bei der Vieldeutigkeit der Silbenzeichen, besonders der für zusammengesetzte Silben, war es unvermeidlich, dass mitunter das nämliche Wort an zwei Stellen und mit verschiedener Aussprache wiederholt wurde: erst nach Vollendung eines vollständigen Wörterverzeichnisses wird die endgiltige Lesung vieler Wörter, was vor allem die Sylben *bu* und *pu, za* und *ṣa, ḳi* und *ḳi* u. s. w. betrifft, fixirt werden können. Dieses Ziel aber mit anbahnen zu helfen, ist ein Hauptzweck dieses Werkes.

Da der Wunsch ausgedrückt worden war, die verwandten Sprachen zur Vergleichung herbeizuziehen, so unterdrückte ich auf den ersten Bogen viele andere nützliche Citate. Die Vergleichungen wollen nicht so verstanden sein, als seien diese Wörter identisch oder stammverwandt, sie wurden vielmehr angeführt um die Nothwendigkeit ganz besonderer Vorsicht in der Beiziehung jener Sprachen darzuthun: die von mir zusammengestellten Ähnlichkeiten, an sich wohl möglich, scheinen mir selbst oft unwahrscheinlich genug. Erst von Mitte des B an war es möglich den ursprünglichen Plan zu verfolgen und mehr auf die Reichhaltigkeit des

Digitized by Google

gebotenen Stoffes als auf unzeitige Erklärungen zu achten. Da jeder, der die Resultate der Assyriologie benützen will, wenigstens die einfachen Silbenzeichen kennt, so schien es nicht nothwendig, jedesmal die Transscription der citirten Stellen beizufügen; der Raumersparniss halber wurde sie zumeist weggelassen, wenn es nicht galt die Aufmerksamkeit des Lesers wachzurufen oder auf eine Vergleichung zu verweisen.

Trotz des grossen Umfanges ist das Werk noch lange nicht vollständig: selbst aus dem zweiten Bande der *Cuneiform Inscriptions* können noch viele, besonders akkadische Wörter, deren Lesung mehr oder weniger unsicher ist, nachgetragen werden, geschweige denn aus den vier übrigen Bänden, dessgleichen den Werken von *Botta* und Dr. *Stolze* und den vielen Tausenden noch unpublicirten Inschriften des Britischen Museums. Das Werk ist nur der Anfang einer vollständigen Sammlung, wird aber hoffentlich auch in dieser Unvollständigkeit und trotz seiner Mängel nicht ohne Nutzen sein. Dem Zwecke entsprechend ist jede Inschrift genau citirt und zwar ganz im Anschluss an meine eigenen Copien der Originale, ohne Aenderung der archaistischen und babylonischen Schriftzeichen, auch mit Angabe der im Originale unsicheren Zeichen: viele meiner Citate aus dem zweiten Bande werden daher in Folge von Ergänzungen oder Verbesserungen sich nicht so in der Publication finden, sondern statt dessen die Berichtigung geben. Die auf das Londoner Inschriftenwerk bezüglichen Citate beschränken sich auf Angabe des betr. Bandes nebst Seite und Zeile*). Ausser dem zweiten Bande sind die I. 9—26 und 53—58 veröffentlichten Inschriften von Tiglathpileser, Asurnaṣirpal und Nebukadnezzar (letztere, im East India House zu London aurbewahrt, als Nbk. E.J.H. citirt), sowie die Syllabare in V. 11—32 mit berücksichtigt worden, die übrigen veröffentlichten Texte dagegen so gut wie gar nicht. Von sonst unedirten Inschriften wurde besonders in der zweiten Hälfte ein ausgiebiger Gebrauch gemacht; dieselben sind nach den Registrationsnummern der Sammlungen des Britischen Museums**) ,und des Louvre in Paris***) citirt. Aus der Bibliothèque nationale in Paris (NB.) wurden mehrere Inschriften benützt, besonders die Cylinder-Inschrift Asurbanipals (NB. 5929), die Nebukadnezzars (Mylitta-Inschrift, NB. 786, von der sich ein Duplikat in New York (NY) befindet), und mehrere kleine Fragmente von Contracttafeln. Die übrigen Citate sind wohl durch sich selbst verständlich. Die altbabylonischen Verträge (die *Case-tablets*, mit B bezeichnet), welche mit einem 624 Wörter enthaltenden Wörterverzeichniss in den Verhandlungen des Berliner Orientalisten-Congresses veröffentlicht sind, wurden nicht weiter berücksichtigt.

Leider hat sich der Druck des Werkes wider Erwarten verzögert, theils durch das mühsame Autographiren, theils durch andere Störungen. In Blijenbeck, Holland, begonnen und in Diton Hall, Lancashire, fortgesetzt, wurde es in London glücklich vollendet. Obwohl alle Sorgfalt auf möglichste Correctheit verwendet worden ist — die einzelnen Inschriften wurden wiederholt mit den Originalen verglichen, die Citate während des Autographirens wiederum verificirt und mit Context gelesen, die Druckbogen aufmerksam corrigirt —, mögen dennoch manche Schreibfehler übersehen worden sein, doch werden sich diese wohl leicht durch Vergleichung der vielen gegenseitigen Citate auffinden lassen.

Zur Erleichterung des Gebrauchs des Werkes ist als Anhang ein kurzes Syllabar beigegeben, das zwar auf Vollständigkeit keinen Anspruch macht, aber immerhin vielen willkommen sein wird. Ebenso wird der zweite Anhang, welcher das Wörterverzeichniss zu den dem Leidener Orientalisten-Congress vorgelegten babylonischen Inschriften enthält, manchen erwünscht sein, da er zu dem vorliegenden Werke einen nicht unerheblichen Nachtrag (im Ganzen 1586 Wörter) liefert, und frühere Lesungen mehrfach berichtigt oder bestätigt. Möge denn das Werk trotz seiner Mängel dazu beitragen, das Studium der assyrisch-babylonischen Alterthümer zu erleichtern und die Resultate der jungen Wissenschaft mehr und mehr zu befestigen!

VORBEMERKUNG.

Das nachfolgende Wörterverzeichniss war ursprünglich bestimmt der dem Leidener Orientalisten-Congress vorgelegten Sammlung babylonischer Texte beigegeben zu werden. Da jedoch die Abhandlungen des Congresses zu allzugrossem Umfang anwuchsen, war das Comité nicht im Stande, zu den Texten auch das Wörterverzeichniss vollständig beizufügen.

Es wurde aber der Wunsch ausgesprochen, dasselbe als eine selbständige Publication erscheinen zu lassen. Diesem Verlangen komme ich hier um so lieber nach, weil mir dadurch eine erwünschte Gelegenheit geboten wurde, einen wichtigen Nachtrag zu dem „Alphabetischen Verzeichniss der assyrisch-akkadischen Wörter" zu liefern, der zugleich das Verständniss der babylonischen Verträge erleichtern wird. Mehrere dieser Inschriften waren bereits im Hauptwerke gelegentlich citirt, und somit liefert dieses vollständige Verzeichniss eine erwünschte Ergänzung, die besonders jenen Gelehrten willkommen sein wird, welche nicht an das Lesen der babylonischen Schriftzeichen gewöhnt sind und doch die Resultate der Keilschriftforschungen controliren wollen.

Besondere Sorgfalt wurde bei den Eigennamen auf die verschiedenen genealogischen Angaben verwendet, sodass die verschiedenen Personen gleichen Namens leicht unterschieden und die dem Inhalte nach zusammengehörigen Inschriften leichter aufgefunden werden können. Auch die vielen Gegencitate dürften die Erklärung erleichtern und sichern.

Bei dem überaus schwierigen Druck war es trotz Lesung dreier Correcturen nicht möglich alle Druckfehler zu vermeiden, doch lassen sich diese durch Nachschlagen der nämlichen Stelle unter ihren einzelnen Wörtern leicht finden und verbessern. Für die mancherlei zweckmässigen Kürzungen sowie für die freundliche Besorgung der dritten Correctur spreche ich dem Herrn Professor Dr. Friedrich Delitzsch hier meinen besten Dank aus.

Die Citate geben die laufende Nummer der Textpublication nebst der Zeile der Inschriften. Da jedoch diese Inschriften oft auch nach dem Datum, dem Namen des Königs, seinem Regierungsjahr nebst Monat und Tag citirt werden, so folgt zur Erleichterung des Gebrauchs eine vergleichende Uebersicht der Citate.
